EDUCATION

SheCodes Professional Coding Program
Front-End Development
React Development
JavaScript, HTML, CSS
API Integration
Responsive Web Development
2025

PROFILE

Junior Front-End Developer specialising in React with strong foundations in JavaScript, HTML and CSS. Currently completing the SheCodes Professional coding program and building responsive web applications using modern technologies and API integrations. After 17 years managing fast-paced hospitality environments, I bring strong problem-solving skills, organisation and resilience to software development. Passionate about building clean, user-friendly interfaces and continuously expanding my technical skills.

EXPERIENCE

RESTAURANT MANAGER

LONDON, UK
2007 – PRESENT

- Managed daily operations in a high-pressure hospitality environment
- Led and coordinated teams while maintaining efficient workflows
- Developed strong problem-solving and decision-making abilities
- Maintained organisation and time management across multiple responsibilities
- Built strong communication and leadership skills transferable to collaborative development teams

PROJECTS

React Weather Application

- Built a responsive weather application using React
- Integrated external weather APIs to retrieve real-time data
- Implemented reusable components and dynamic state updates
- Designed responsive interface for desktop and mobile devices

JavaScript Weather App

- Developed an interactive weather search application
- Used JavaScript and API integration for real-time data display
- Built responsive UI using HTML and CSS

Front-End Web Projects

- Developed responsive websites using HTML, CSS and JavaScript
- Focused on user experience and clean interface design
- Practiced DOM manipulation and interactive functionality

Dictionary App

- Built a responsive React application for searching words, definitions, synonyms, and pronunciations.
- Utilized API integration to fetch dynamic dictionary data.
- Applied state management and component-based architecture for a smooth, interactive user experience.
- Emphasized mobile-first design and accessibility best practices.
